GLOBALSUN POWER TECHNOLOGIES OVERVIEW

Constituent of the Group was established for trading of Power Products in 2003. Understanding the demand of Solar Products, the subsequent proprietary firm was formed in 2016 in the name of Globalsun Power Technologies. It rapidly became one of the leading Solar and Power Products distributor. Taking advantage of the new opportunities, the Leaders decided to convert this group into a Private Limited company hence Globalsun Power Technologies Pvt. Ltd. came into existence.

Globalsun Power Technologies Pvt. Ltd. (GPTPL) is aiming to become one of the largest and most trusted multibrand Solar and Power products trader and manufacturer in Maharashtra. It is located in the heart of city at Nirala Bazar, Aurangabad. Globalsun trades as well as manufactures Solar and Power products. It extends sales and services to a diversified sect of Industrial, Commercial, Residential and Agricultural customer base in Maharashtra. Over a period of time Globalsun has been continuously gaining the trust of Valued Customers because of genuine products and its services. We deal in Multi Brand Solar Panels, Solar Inverters, Solar Batteries, Online & Offline UPS, Power Stabilizers, Solar Water Heaters, Conventional Inverters & Batteries and wide range of Power and related products. It also has own manufacturing of Solar Luminaries, Solar Water Heaters, Solar Lightning System, Solar DC Fans and many other Solar Products.

With the belief of customer satisfaction and unparalleled service, GPTPL is continuously striving to remain preferred choice for the customers and stakeholders. We employ professionals who are having experience & expertise in their field which translates them into a highly motivated workforce. We believe to deliver cost effective, better quality & highly efficient sustainable solar energy and power products. Thus GPTPL is enabling the future of power, clean & green energy.
